2011-12

Conference Sponsorship
Information & Application

The American Planning Association's New York Metro Chapter addresses planning issues that concern the physical, social, and economic environment in the metropolitan region encompassing New York City, Long Island and the Hudson Valley. The Chapter represents some 1200 practicing planners and other people involved in the planning and design of the region's communities.

The Chapter actively fosters interdisciplinary interaction between educators, practitioners, students, administrators, community organizers and developers from all walks of the planning profession and beyond. It is through the work of the Chapter that an on-going discussion about the future of the New York Region takes place – this autumn at our half-day conference, annual awards and general meeting.

We welcome you to join us, partner with us, and support us at our 2011 Autumn Biennial Conference, and throughout our entire 2011-12 programming year!

Donald Burns, AICP, President
